

# Curriculum Vitae

## Personal Information

The purpose of a CV is to show employers that you are suitable for the jobs you are applying for and persuade them to invite you to interview with them. It is a written document which should include information about your skills, qualifications and work experience. I am a hard-working and driven individual who isn't afraid to face a challenge. I'm passionate about my work and I know how to get the job done. I would describe myself as an open and honest person who doesn't believe in misleading other people and tries to be fair in everything I do.

- **Name:** Thofazzol Hossen
